## Celebration of Learning: Thursday 19th

This term we will have our celebration of learning a little earlier starting at 9:30 sharp on Thursday 19<sup>th</sup> September. We will have a smaller cuppa after the students share their learning as we have a lot of visitors coming soon after.

Friday 20th SEPTEMBER is the last day of term and we will finish at **12:45pm**.

## Airly & Cobains Primary School Visit:

Airly Primary School and Cobains Primary Schools will be visiting next Thursday as they are having their power interrupted. This is a great time to give back to the cluster who often open their schools to us. I'm hoping to highlight some of Loch Sport's charm by visiting the lake/boat ramp and maybe the beach. I was thinking maybe even some "fishing" off the jetty, if anyone has a good idea of how to equip about 20 kids at a time with hand lines, I'd love to hear it as I'm scratching my head at this stage.

## **Health Body and Healthy Minds.**

I've included some extra photos of the athletics because I really am proud of our school community and what we can achieve together. We have and will continue to concentrate on healthy minds and bodies next term and talking more on healthy foods and variety. We already have fruit break at school and ask that students bring along whole fruit and thanks to the breakfast club we always have fresh apples. I would encourage parents in the warmer months to limit the amount of 2 minute noodles students have in the week. It really is a sometimes food and doesn't offer the energy that the young bodies need to get through the school day.

## **Ride to School Month**

Every day during October we will be participating in "ride to school". This will be the third time we have participated in this as a whole school in this Victoria Wide initiative. We meet at a central location, this year we are going to store our bikes at the Marina and ride along the fore shore as a group. We then ride back after school and store our bikes at the meeting point (the Marina) ready for the next morning, this eliminates the need for parents to keep putting bikes in and out of cars.

There is still a week until the end of term, so this is the perfect time to start practicing riding and making sure our bikes work. If you are really stuck, I can do minor repairs at school and get the bikes working. We have a pump and a puncture kit and a few tools to make minor adjustments. The students are also welcome to bring their bikes to school and practice riding at playtime and lunch to build up their muscles and skill. We can lock them in the bike shed over night to keep them secure.

This year we will meet at 8:30 and make our way to school and on the way home we will leave school at 2:30 and meet parents at the meeting point. We will have a better idea how long it will take to ride once we start, but it takes about 20 minutes.

## **SUMMAH'S HIGHLIGHTS**

### **LIGHTBURN**

At the end of last month, all of the senior students started to use our new software that connects to our new laser printer. That's where we made the father's day frames. That was the children's first time using the software. Light burn was new for mostly all of the students, most were challenged by the program but did a spectacular job. We will hopefully continue making gifts or what not on these types of programs.

### **FINGER KNITTING**

On Wednesday Carha taught most of the kids a beautiful new skill in maker space. Although a lot of people didn't get it straight away and got frustrated Carha, Tracey and Meaghan walked them through the process. And now all the kids know or have been introduced to Finger Knitting.

### **PUNCH CARDS**

As you may know the students all have punch cards that if you get 10, 20, 30 or 40 punches you get a reward such as icy pole, milkshake, smoothie or hot lunch. These cards are important because on the punch card it shows our schools main 4 values. Show Kindness, Have a Go, Be Safe and Be Responsible. The students are told to read it when they get to school to remind them of what they have to do.

### **BIRTHDAY'S**

On Thursday the 13<sup>th</sup> Renee turned 7, she was very excited and tried to prove she had grown a foot overnight. And Meaghan had kindly made a delicious fluffy pavlova for Renee upon her request. And our chaplain Jody turned 35 on Tuesday.

### **OUR SCHOOL BOOK**

On Friday the 13<sup>th</sup> we all wrote a page about ourselves, our hobbies and interests. Some of the students had a hard time to write about themselves but all the kids did a wonderful job. The students all wrote facts and pictures about themselves and all of them together will make a lovely colourful book.
