Loch Sport Primary School Council Elections 2022

Our elections are now taking place and nominations close
Wednesday 9th March at 4.00pm.

We have 2 parent vacancies. A self nomination form for parents
is available from the office.

We thank Ray and Nicole for the past two years and they are able
to renominate for the parent position.

It has been a busy term. We have been learning about 2D and 3D shapes and their characteristics in Maths, in Writing we have started learning how to make persuasive arguments (so if your child is a little more chatty than usual ask them to write it down).

PLAYGROUND: We have finally had some initial plans for our new playground drawn up, they were a start but not quite what our final image of what we would like, they have gone away with some more ideas of what the students and staff would like. We are now waiting for the landscaping plans to bring everything together.

COVID RULES: We no longer must scan the QR code when you come into the school, anyone entering the buildings, however, need to be fully vaccinated.

All visitors need to sign in at the office as we have always done.

STUDENT DROP OFF: With the roadworks happening this week I have been stuck in traffic and not getting to school at my usual time. It has highlighted that some carers are dropping students off before 8:15, the time that we are supervising students.

I am aware that there are times when they may need to be dropped off early but I expect a text message asking if this is ok so we can make sure there is a teacher on duty.

OPEN WATER LEARNING: On Thursday 3rd February the whole school attended an Open Water Learning Program at Seaspray run by Life Saving Victoria. The students learnt what to look for when swimming in the ocean. Water safety is a big part of living in Loch Sport.

STUDENTS' THOUGHTS

CARHA

We learnt how to do CPR. You put your left hand down on their chest, then put your right hand on top of your left and interlock your fingers you have to do 30 chest compressions. To get the correct rhythm you can sing the song "Baby Shark". It goes like this...

Baby shark do do do do do do

Baby shark do do do do do do

Baby shark do do do do do do

Baby shark.

Mummy shark do do do do do do

Mummy shark do do do do do do

Mummy shark do do do do do do

Mummy shark.

That should add up to 30 chest compressions.

RENEE

If you are in a boat with others and then it crashes the best thing to do is form a circle, making sure there is a space in the middle. If people get injured getting out of the boat you would put them in the middle because forming a circle will accumulate body heat and will warm the injured person. So when help comes the injured one will be warm until you get to safety.

HARLEY

On March 3 we went to Seaspray for open water safety day. We learnt if you ever find a person unconscious place them in the recovery position. Next put your thumb and your first finger on their chin and then block their nose and then open up their mouth. Check if something is blocking their airway and if there is try getting it out with their hands or wear gloves if that does not work call 000 and ask for ambulance.

JACOB

A helmet could save your life.

If you can see someone struggling in the water, grab something that floats, a bike helmet will do if that's all you have. You swim until you are about 2 m away. Then throw it to them. Always bring something that floats because it can save your life.

AVERY

Everybody was making waves with their boogie boards.

I had a blast and learnt lots about the beach.

GEMMA

The waves were too big for us to go in, so we went to the river instead.

SAM

On Thursday we learnt about rips. You can escape a rip by swimming to the side.

OPEN WATER SAFETY DAY AT SEASPRAY

3rd MARCH 2022

Learning skills to keep all safe in open water
